Contents

List of Figures **iii**

My list of definitions **v**

List of Code Samples **vii**

1 A chapter **1**

List of Figures

1.1 Some figure text 1
1.2 Some figure text 2
1.3 Some figure text 2
1.4 Some figure text 3

My list of definitions

1.1 A definition 2
1.2 Some other definition 2
1.3 Yet another definition 2
1.4 More definitions 2
1.5 More definitions 3

List of Code Samples

1.1 An algorithm 2
1.2 Another algorithm 2
1.3 Even more algorithms 3
1.4 Even more algorithms 3

1

A chapter

Figure name: ‘New Figure Name’
Figure float name: ‘New Figure Name’
Table name: ‘Table’
Table float name: ‘’
Definition name: ‘First Definition Name’
Definition float name: ‘First Definition Name’
Code name: ‘code’
Code float name: ‘code’

Look at the example in New Figure Name 1.1.

New Figure Name 1.1: Some figure text

Figure name: ‘Redefined Figure Name’
Figure float name: ‘Redefined Figure Name’
Table name: ‘Table’
Table float name: ‘’
Definition name: ‘First Definition Name’
Definition float name: ‘First Definition Name’
Code name: ‘code’
Code float name: ‘code’

Now, look at Redefined Figure Name 1.2.

Redefined Figure Name 1.2: Some figure text

Here we have a definition:

First Definition Name 1. A definition

And another:

First Definition Name 2. Some other definition

Remember, from First Definition Name 1, that something. . .

Remember, from Redefined Definition Name 2, that something else. . .

Redefined Definition Name 3. Yet another definition

Here is code 1.1:

```
This is an algorithm
```

code 1.1: An algorithm

And here is Redefined Code Name 1.2:

```
This is another algorithm
```

Redefined Code Name 1.2: Another algorithm

Now we have changed language to Norwegian.

And we have figur 1.1 and Redefined Definition Name 1 and Redefined Code Name 1.1.

Figur 1.3: Some figure text

And

Redefined Definition Name 4. More definitions

And

Code, code, code

Redefined Code Name 1.3: Even more algorithms

Figure name: ‘Figur’
Figure float name: ‘Redefined Figure Name’
Table name: ‘Tabell’
Table float name: ‘’
Definition name: ‘Redefined Definition Name’
Definition float name: ‘Redefined Definition Name’
Code name: ‘Redefined Code Name’
Code float name: ‘Redefined Code Name’

Now, we have switched back to US English.

And we have Redefined Figure Name 1.1 and Redefined Definition Name 1 and Redefined Code Name 1.1.

FOURTH EXAMPLE FIGURE

Redefined Figure Name 1.4: Some figure text

And

Redefined Definition Name 5. More definitions

And

Code, code, code

Redefined Code Name 1.4: Even more algorithms

Figure name: ‘Redefined Figure Name’
Figure float name: ‘Redefined Figure Name’
Table name: ‘Table’
Table float name: ‘’
Definition name: ‘Redefined Definition Name’
Definition float name: ‘Redefined Definition Name’
Code name: ‘Redefined Code Name’
Code float name: ‘Redefined Code Name’
